

## October Update:

October kicked off with two mid-semester exams back-to-back. Following the exams, the major topics in Spreading of Pollution have been exchange and mixing processes including jets and plumes. Currents and wave statistics have been the focus in the Marine Physical environment course while the literature reviews continue to be a work in progress at Sintef.

On a more cultural note, UKA is the largest cultural festival in Norway and is arranged every other year. It is mainly a music festival bringing in visitors from all over making Trondheim a lively place. This year UKA spanned from October 4<sup>th</sup> through 28<sup>th</sup>.
